## Glossary Terms and Definitions

**"Discrimination"** - Where a person or group of people are treated unfairly on the grounds of an attribute. This includes but is not limited to: race; language, including signed language; sex; gender identity; sexual orientation; sex characteristics; age; relationship status; accommodation status; employment status; employment in sex work or engaging in sex work including past employment in sex work or engagement in sex work; pregnancy; carer responsibilities; breastfeeding; disability; HIV/Hepatitis status; subjected to domestic violence; trade union or employer association activity; religious or spiritual belief or activity; political opinion, affiliation or activity; irrelevant medical record; irrelevant criminal record; physical appearance, health or medical status or ability; the person's details being published under section 66M of the Fines and Penalties (Recovery) Act 2001 (NT); and Association with a person who has, or is believed to have, any of these attributes.

**"Senior Executive"** - An employee of the University holding the position of Vice-Chancellor and President, Vice-President, Assistant Vice-Chancellor, Provost, University Secretary, Deputy Vice-Chancellor, Pro Vice-Chancellor, Chief Financial Officer or equivalent.

**"Antisemitism"** - Antisemitism is discrimination, prejudice, harassment, exclusion, vilification, intimidation or violence that impedes Jews' ability to participate as equals in educational, political, religious, cultural, economic or social life. It can manifest in a range of ways including negative, dehumanising, or stereotypical narratives about Jews. Further, it includes hate speech, epithets, caricatures, stereotypes, tropes, Holocaust denial, and antisemitic symbols. Targeting Jews based on their Jewish identities alone is discriminatory and antisemitic. Criticism of the policies and practices of the Israeli government or state is not in and of itself antisemitic. However, criticism of Israel can be antisemitic when it is grounded in harmful tropes, stereotypes or assumptions and when it calls for the elimination of the State of Israel or all Jews or when it holds Jewish individuals or communities responsible for Israel's actions. It can be antisemitic to make assumptions about what Jewish individuals think based only on the fact that they are Jewish. All peoples, including Jews, have the right to self-determination. For most, but not all Jewish Australians, Zionism is a core part of their Jewish identity. Substituting the word "Zionist" for "Jew" does not eliminate the possibility of speech being antisemitic.
