ELICOS product prioritisation

(5) The Vice-Chancellor decides as to the strategic fit and financial viability of the course.

(6) Prior to course registration for a new ELICOS course, the Course Proposer must prepare a business case in the Curriculum Management System (CMS) for endorsement by the Faculty Pro Vice-Chancellor.

(7) The business case must provide adequate information to decide whether the course should be added in the University's product portfolio, including:

- a. course overview;
- b. course strategic rationale analysis;
- c. course student demand;
- d. course risk management;
- e. course resources; and
- f. key stakeholder review.

(8) Curriculum planning and design cannot commence until the business case is submitted by the Faculty Pro Vice-Chancellor to the Vice-Chancellor and approved.

ELICOS course planning and design

(9) During the course planning and unit design phase, the Academic Programs Committee conducts a quality review

and ensures compliance with the academic requirements of the University and legislation prior to application to [TEQSA](#) for approval.

(10) Once a new ELICOS course is prioritised and approved for course development by the Vice-Chancellor, the Faculty must prepare a course plan and design in the CMS.

- e. incidental fees and costs.

(16) Once Academic Programs Committee approves a new ELICOS course and units, an application is submitted to [TEQSA](#) for approval.

Course review

(17) All ELICOS courses must be subject to two Course Reviews:

- a. Annual Course Review where quality improvements are identified and reported on through the Annual Course Monitoring (ACM) process. Course improvement plans must be approved by FLTC and submitted to Academic Board for noting.
- b. Major Course Review that occurs at least once every 7 years for the purposes of re-registration. These reviews are informed by previous Annual Course Reviews, student feedback at the unit level, student cohort success

and satisfaction, assessment methods and grading against comparable courses. The outcomes of the Major Course Review must inform the business case for re-registration or discontinuation as set out in this procedure.

(18) Annual or Major Course Reviews may result in amendments, revision, suspension and/or discontinuation of ELICOS courses.

(19) Minor and major amendments must consider and minimise the potential impact on students.

(20) A minor amendment to a unit involves amendments within a course registration/re-registration period that do not involve substantial change such as:

(25) Where numerous amendments to an ELICOS course are proposed the Chair of the Academic Programs Committee will determine if the changes are so significant that the Faculty Pro Vice-Chancellor will submit of a business case for re-registration as detailed in this procedure.

(26) Proposals for course discontinuation are submitted through the CMS and endorsed by the Faculty Pro Vice-Chancellor, followed by an Academic Programs Committee review and Vice-Chancellor approval. The Vice-Chancellor may initiate and approve course discontinuation without the approval of the Faculty Pro Vice-Chancellor.
