### Intent

- (8) The use and creation of OER reduces costs and increases accessibility to higher education resources for students.
- (9) In using OER, the University will:
- a. aim to have free and open resources available to as many students of the University as possible throughout their first year and, where practical, across the entire duration of their course of study;
  - b. ensure that resources published on the University's OER platforms are open and publicly available to people

external to the University; and

- c. encourage students to be co-creators of knowledge in a more equitable student learning experience.

## **Publishing Open Educational Resources**

(10) The University recommends that text or multimedia resources are published in an appropriate repository or public-access website to maximise discovery and use by others. Staff are encouraged to share OER resources to Creative Commons (CC) repositories. When publishing OER please refer to the [OER Guide](#) or seek advice from Library Services.

## **Copyright**

- c. can be used in Massive Open Online Courses (MOOCs), social media, or in digital platforms and other services that are publicly available.

(13) When using OER, students and staff must comply with the terms of the licence of use.

(14) It is the responsibility of staff and students to ensure that they have the necessary rights to publish an OER and that all resources published comply with all relevant policies (e.g. the [Copyright Policy](#), [Copyright Procedure](#), and [Intellectual Property Policy](#)).
