

HE Teaching - Professional Experience Equivalence Policy and Procedure

Section 1 - Preamble

(1) Charles Darwin University ('the University', 'CDU') is focused on quality and excellence to deliver outcomes with impact. The University strives to ensure that all we do is of high quality and meets the needs of our students, industries, and communities to deliver impact.

(2) The University endeavours to implement high-quality standards, processes, and outcomes. Students are entitled to expect that they are being taught by academic staff who are qualified in a relevant field of study, at a level more advanced than the level of the course being taught.

Section 2 - Purpose

(3) This policy and procedure provides a framework for assessing the equivalence of qualifications through professional experience for higher education academic staff members.

(4) This policy and procedure should be read in conjunction with the [Recruitment and Selection Policy](#).

Section 3 - Scope

(5) This policy and procedure applies to current and prospective academic staff, including casual academic staff, who teach and/or assess students in higher education coursework courses and units, including those delivered by any of the University's third-party teaching partners.

(6) This policy and procedure does not apply to:

- a. guest lecturers;
- b. internships or other forms of work-integrated learning; or
- c. the supervision of HDR candidates (refer to the [Higher Degree by Research - Supervision Procedure](#)).

Section 4 - Policy

(7) The University is committed to delivering high quality learning, teaching, and research activities and ensuring academic staff are appropriately qualified to lead students in intellectual inquiry and achieve the learning outcomes of their course.

(8) To ensure the delivery of quality education, academic teaching staff must either:

- a. hold a qualification at least one (1) AQF level higher than the course of study in which they are teaching; or
- b. hold a qualification equal to the AQF level in which they are teaching and have equivalent academic or

professional or practice-based experience and expertise equivalent to one (1) AQF level higher than the course in which they are teaching.

(9) Where a course leads to more than one award at different levels, the highest award defines the level of the course.

(10) Where a unit is listed as a course requirement for more than one course, academic teaching staff must have the level of qualification for the course that leads to the highest award.

(11) In the instance an individual does not hold the requisite qualification, a determination of the individual's professional or practice-based experience and expertise may be used to ensure teaching requirements under the [Higher Education Standards Framework \(Threshold Standards\) 2021](#) are met.

(12) Equivalence of professional experience is granted for one (1) AQF level increment only.

(13) The Faculty Pro Vice-Chancellor is responsible for the assessment and approval of an academic staff member's qualifications and equivalence of professional experience.

(14) The University will consider the full range of relevant, verifiable professional activities of the individual in determining the equivalence of professional experience. This includes consideration of:

- a. teaching experience, scholarship, and professional practice;
- b. the minimum requirement of academic qualification(s); and
- c. any specific criteria for assessing professional equivalence at the relevant AQF level.

(15) When determining equivalence, the professional experience must be current, relevant to the discipline and AQF level being taught, and must be demonstrated by meeting the criteria outlined in this policy and procedure.

(16) Where a staff member does not meet all relevant criteria outlined in this policy, an explicit and time-limited professional development plan, which may include mentoring or team teaching, must be put in place to enable the staff member to make the transition to academic teaching successfully.

(17) The University acknowledges that First Nations knowledges and some emerging academic disciplines or highly professional specialist subjects may require some flexibility in the application of this policy and procedure. The Provost may approve alternative arrangements that are in keeping with the intent of this policy and procedure. The Provost will consult with the Deputy Vice-Chancellor First Nations Leadership when considering alternative arrangements on the basis of First Nations knowledges.

(18) An academic staff member with specialised expertise (such as expert practitioners or teachers undergoing training) may be engaged to teach specialised components of a course, under the supervision of a University staff member with the required AQF level qualifications.

Section 5 - Procedure

(19) Prior to any offer of casual, fixed-term or continuing employment being made to an individual who does not hold a qualification at least one (1) AQF level higher than the course in which they would teach, the hiring manager will refer the application to the relevant Faculty Pro Vice-Chancellor.

(20) The Faculty Pro Vice-Chancellor will assess whether the individual's qualifications and academic, professional, or practice-based experience are equivalent to a qualification at least one (1) AQF level higher than the course in which they would teach.

- a. A record of the determination, including the AQF level the staff member can teach to and the evidence on which

the determination was based, must be provided to People and Culture with the staff appointment forms.

(21) When assessing professional equivalence on its merits, the Faculty Pro Vice-Chancellor must:

- a. ensure the staff member meets the minimum qualification level of the course to be taught; and
- b. assess all applicable and verifiable professional experience including relevant teaching experience (such as teaching at lower AQF levels, conducting professional development seminars, giving public lectures), scholarship, and professional practice.

(22) Where an individual is appointed based on professional experience equivalence, or does not meet the standard requirement and has been appointed to teach a specialised component of a course, the Letter of Offer may specify additional requirements or conditions, such as the requirement to:

- a. commence the relevant higher education AQF level course within the first 6 months of employment and regularly demonstrate satisfactory progress towards completing the course;
- b. participate in professional development and scholarly activities relevant to their discipline/field; and
- c. establish a supervision plan with an appropriately qualified academic staff member.

(23) The Faculty Pro Vice-Chancellor or delegate is responsible for reviewing the progression of a staff member appointed based on the equivalence of professional experience annually, until such time the required AQF Level qualification has been achieved.

Minimum qualification levels and relevant experience

(24) Table 1 – Minimum qualification levels and relevant experience outlines the minimum qualification requirements for academic staff and criteria to demonstrate the equivalence of professional experience for each of the AQF levels.

- a. These are not exhaustive and should be interpreted as a guide within the context of each discipline and professional area.
- b. Qualifications should be in the same (or a cognate) discipline as the course content and materials being taught.
