

Academic Staff Promotions Procedure

Section 1 - Preamble

(1) Charles Darwin University's ('the University', 'CDU') [Academic Staff Promotions Policy](#) and [Academic Staff Promotions Procedure](#) further the University's goal to recruit, retain and develop high performing academic staff by offering achievable career pathways. Promotion of academic staff recognises and rewards sustained achievement and leadership that supports and contributes to the attainment of the University's strategic priorities. Assessments are made on the basis of evidence of performance in the relevant area(s) of Academic Work. To be successful applicants for promotion must provide convincing evidence of meeting the University's standards, expectations and qualifications for the level to which promotion is sought.

Section 2 - Purpose

(2) To inform academic staff of the rules, responsibilities and timelines associated with the [Academic Staff Promotions Policy](#).

Section 3 - Scope

(3) This procedure applies to all academic staff of the University, and to all staff members responsible for managing academic staff promotions, including all members of Academic Promotions Committees.

Section 4 - Procedure

Criteria for Promotion

(4) In the 12 months prior to being considered for promotion, applicants must have conducted themselves with academic, research, and professional integrity. The promotions process will take into consideration past conduct, including but not limited to any substantiated allegations of gender-based violence in the course of the applicant's employment with the University.

(5) Where an applicant has been found to have committed a serious breach of academic, research, or professional integrity between one and three years prior to applying for promotion, the Vice-Chancellor may decide to exclude them from consideration for promotion.

(6) The University will recognise high levels of performance and achievement, appropriate to Level, discipline field, type of appointment and agreed Development and Career Plan (DCP) work plan, and relative to opportunity, in the following four areas of Academic Work:

- a. Learning and Teaching;
- b. Research and scholarship;
- c. Engagement; and
- d. Academic Management and Leadership.

(7) Applicants must meet the threshold requirements (Academic Classifications) for appointment at the Level to which they seek promotion.

Academic Workload Allocation

(8) In consultation with their Pro Vice-Chancellor (or equivalent), applicants assign a percentage weight to each area of their current work profile. The weighting percentage should total 100. Normally no single area should be more than 80 percent. The weighting assigned should reflect the applicant's academic classification (Research Active, Teaching Focused or Research Focused) and their current work profile. The Pro Vice-Chancellor will be asked to confirm the weighting. Where there has been a substantial change in work profile, during the period relevant to the promotion application, this should be clarified in the body of the application.

When to Apply

(9) Normally a call for applications will be made from April each year with information sessions following this. All staff will be informed about the closing date and given a minimum of six (6) weeks within which to submit their application.

(10) Academic staff who have applied unsuccessfully for promotion are ineligible to apply the year following an unsuccessful application. Applicants are encouraged to carefully consider, in conjunction with their Pro Vice-Chancellor, whether their claim for promotion has significantly improved before discussing the timing of promotion plans. In exceptional circumstances, the Chair of the Academic Promotions Committee may approve an application from a staff member, supported by the relevant Pro Vice-Chancellor, the year following an unsuccessful application.

How to Apply

(11) Applicants must discuss their intent to apply with their Pro Vice-Chancellor before applying for promotion.

(12) Applications must be made using the appropriate application form and follow the instructions on the form.

(13) The applicant should forward the completed application electronically to the Pro Vice-Chancellor so that they may provide the required written commentary. The applicant should also forward the application electronically to the Secretary to the Academic Promotions Committees.

Pro Vice-Chancellor, Referee and Assessor reports to be provided

(14) Each application requires one referee report and one Pro Vice-Chancellor report.

(15) The Chair may request an external Assessor report for level D and E applications, if required.

(16) Applicants must provide a copy of their completed application (sections A - C) to the Pro Vice-Chancellor. The Pro Vice-Chancellor will evaluate the application and complete an appraisal of the information presented regarding Academic Work areas and Classifications. The Pro Vice-Chancellor will provide a recommendation for the case of promotion with supporting reasons.

(17) Referees normally should be at least at the level to which the applicant is applying, and preferably higher. It is the applicant's responsibility to ensure their referee is an individual of standing in the relevant academic and professional field who can address the applicant's claims across the relevant Academic Work areas.

(18) The reports from the relevant Pro Vice-Chancellor and Referee must be provided to the Secretary to the Academic Staff Promotions Committee by the applicant. The applicant may respond to the comments made in the report by the Pro Vice-Chancellor within the application form.

(19) If required, assessors should be external to the University. The Pro Vice-Chancellor is required to provide the names of potential Assessors for promotion to Level D and Level E. For applications to Level E, one of the potential

Assessors should be of international standing.

(20) The Assessor does not act as a Referee but, rather, as an expert in the field able to offer the Academic Promotions Committee a balanced and confidential assessment of the merits of the particular application according to the stated criteria. Assessors will also provide, if possible, an indication of the applicant's standing in the field or area of activity. Assessors should preferably be persons of eminence who may or may not be known personally to the applicant but who are aware of the applicant's activities in the areas on which the application is based and, normally, with whom the applicant has not collaborated or published.

(21) While the Committee will use the Pro Vice-Chancellor's list for guidance, it may take advice from elsewhere when selecting its Assessors. The Committee will make the final decision regarding the choice of assessors and applicants will not be informed of their names.

(22) Applicants may advise of any potential Assessors that they do not wish the University to approach for independent assessment of their application for promotion. Applicants should identify any potential Assessors in their application form, together with a brief justification of the request to exclude them from the promotions process.

(23) Where there may be a conflict of interest, the nature of the relationship and potential conflict of interest must be declared. Reports provided will then be assessed taking into account the context.

(24) The Pro Vice-Chancellor and Referee reports will not be provided to the Assessors during the promotions process.

Submission of application for Promotion

(25) One electronic copy of the application and relevant Pro Vice-Chancellor and Referee reports must be provided to the Secretary to the Academic Promotions Committees.

(26) Receipt of applications will be acknowledged in writing.

(27) In cases where the application is not complete a request for further material from applicants may be made.

(28) In exceptional circumstances, with the staff member's consent and approval of the Chair of the Academic Promotions Committee, a Pro Vice-Chancellor may submit an application on behalf of a staff member.

(29) The Secretary of the Academic Promotions Committees will provide a list of applicants to the Director People and Culture. The Director People and Culture will review applicants' staff records and advise the Provost of any relevant conduct-related issues.

Evidence to Support an Application for Promotion

(30) Applicants provide evidence of achievement in each area that forms part of their specific case for promotion. The Committee will make an assessment based on the overall case.

(31) Indicative levels of performance, achievement and preparation appropriate at each Level of appointment in each of the four areas are provided in the Academic Performance Expectations Framework for Higher Education staff and VET staff. Applicants may cite other examples to demonstrate their performance and achievement.

(32) Applicants should take care to elaborate their achievements in each relevant area, and must provide supporting evidence for any claims made in their application. The Committee will not consider claims that are not supported by clearly identified evidence in the application.

University Training Requirements for Applicants

(33) Satisfactory completion of any staff development or training programs required by the University as preparation

for teaching, research supervision, management and leadership roles. Relevant programs will be aligned to roles but would normally reflect provisions in the [Charles Darwin University and Union Enterprise Agreement 2025](#) and/or staff Development and Career Plan (DCP).

Equal Opportunity and Conflict of Interest

(34) Applicants and Academic Promotions Committee members should bring to the attention of the Chair of the Academic Promotions Committee any instances where they believe that a conflict of interest, discrimination or bias may affect the assessment of applications.

Confidentiality of Applications

(35) All staff involved in academic promotions will maintain complete confidentiality regarding committee deliberations and outcomes during the application round. Feedback will be provided, as appropriate, to applicants at the conclusion of each round. Successful applicants will be announced by the Office of the Vice-Chancellor at the conclusion each round.

Assessment of Application

(36) The Academic Promotions Committee will base its decisions on the material provided in the application and relevant, evidenced information about past conduct. The Committee will not take into consideration other information that is known to the Committee, but which is not referred to and supported with evidence in the application.

(37) Staff on fractional or joint appointments, and those whose career paths have been interrupted or delayed due to significant periods of leave for caring responsibilities, illness or other non-work related reasons, should advise the Committee of these circumstances so that their applications may be assessed in terms of what they have achieved, and in particular the quality of that achievement, in relation to the opportunities available.

(38) Disciplinary differences will be taken into account and, wherever possible, the Committee will use disciplinary norms when assessing applications. If there are matters that require clarification, additional information may be sought from the Pro Vice-Chancellor or other appropriate senior person with knowledge of that particular discipline or specialist area.

(39) Where clarification is required this may be requested in writing, or the applicant, referee, or Pro Vice-Chancellor may be invited to speak with members of the Committee.

(40) For promotion to Level B and Level C for Higher Education academic staff the Academic Promotions Committee has the following membership:

(51) Following the Vice-Chancellor's approval of the Academic Promotions Committee recommendations, the Committee Secretary will advise unsuccessful applicants in writing. In doing so, the Secretary will also advise the applicant that they may seek a meeting with the Chair of the Academic Promotions Committee to discuss the outcome of their promotion application.

(52) The Pro Vice-Chancellor will also meet with each unsuccessful applicant to provide information that would be useful for the future guidance of the applicant. Meetings for this purpose will take place as soon as possible after the Vice-Chancellor has accepted the Committee's recommendations.

(53) In meeting with unsuccessful applicants Pro Vice-Chancellors should consider strategies to support and encourage unsuccessful applicants, including such things as:

- a. identifying an academic mentor who can assist the staff member to improve their promotion prospects;

(56) Unsuccessful applicants must ensure they have new and relevant information and evidence to support a new application before re-applying.

(57) Applicants not recommended for promotion may seek a meeting with the Chair (or nominee) of the Academic Promotions Committee to discuss the outcome of their promotion applications. The Chair may request the member of the Academic Promotions Committee with the closest disciplinary background to participate in such a meeting.

Grounds for Appeal
