

# Travel Policy

## Section 1 - Preamble

(1) The University recognises that travel is an important enabler for its teaching, learning, research, engagement and administration activities. Staff members and students may be required to undertake intrastate, interstate and/or international travel as part of University business.

(2) Travel bookings and approvals must follow the University's established processes. Travel requires accountable and transparent practices to ensure that the University's duty of care to travellers is maintained and its prudential, legal and tax obligations are complied with. Travellers have an obligation under the University's [Code of Conduct - Staff](#) to comply with this and other Governance documents while undertaking their duties.

## Section 2 - Purpose

(3) The purpose of the Policy is to:

- a. support staff and others to effectively and efficiently manage travel arrangements and associated expenses on behalf of the University;
- b. adopt the highest standards of safety and wellbeing for travellers; and
- c. ensure that travel is only made when essential for achieving the University's objectives.

## Section 3 - Scope

(4) This Policy applies to all University travel arrangements and to all travellers who travel on official University business, regardless of the source of funds, duration of the travel or business purpose. This may include, but is not limited to, staff members, persons accompanying staff members who are representing or engaged in University business, students, adjuncts, associates, including members of Council, consultants and other persons and/or visitors whose travel is associated with and paid for by the University.

## Section 4 - Policy

(6) To achieve the University's strategic goal on prioritising environmental and organisational sustainability, travellers should reduce our carbon footprint by considering alternatives to undertaking travel such as teleconferencing and video-conferencing. University resources must be used efficiently to ensure costs are minimised.

### Environmental Sustainability

## **Pre-approval**

## **Private Travel**

(16) The practice of combining private travel with official travel is not encouraged. However, Travel Approvers may review and approve incidental private travel on a case by case basis, which must not result in any additional cost to the University. Travellers must not pilot a personal or leased aircraft or travel using a private plane or non-approved air charter unless an exception is granted by the Vice-Chancellor.

(20) Where remote travel requires chartering flights, travellers should always attempt to coordinate their travel with other business units, government agencies or organisations in order to share the cost of the charter flights and other transport.

## **Insurance**

## **Health and Safety**

(22) Reasonable steps must be taken by a traveller to ensure they are fit to travel and that they avoid doing anything that creates or increases the risk to their health and safety. As a representative of the University, the traveller must ensure that their behaviour is at all times appropriate to the purpose of the travel, compliant with local laws and customs and consistent with the University's [Code of Conduct - Staff](#).
